PROJECT COMPLETION REPORT CUM TEST REPORT

The particulars regarding Solar Plant installation of ..... kW / ..... kVA at the premises of Consumer Number .....Registerd in the Name of Sri: ..... are given below and are correct and it complies with Indian Electricity Rule, CEA 2023 and other rlevet rules. The installation have bee actually installed and are ready for Test, The insulation Resistance and Ground resistance values are as follws

1	No. of Earth Electrodes Provided	Nos.	Earthing System Provided as per standards (Revised IS 3043/2018)	YES/NO
2	The insulation Resistance of all installation			Mege ohm
3	The insulation Resistance Between conductors			Mege ohm
4	The insulation Resistance Between conductor and earth			Mege ohm
5	Resistance of Earthing Electrodes of Ground System			ohm
6	Maximum Earthing Resistance for Installation			ohm
